

Empowering Manitoba's Youth

April 23, 2019

We recently purchased 10 desks from Kisik Inc. for our office. I would highly recommend using the services of Kisik Commercial Furniture to any other business. The staff were very prompt with responses and providing options that would suit our needs and price point. They were also very friendly and helpful through e-mail and in person. Debbie and the installers were great to work with, and I will purchase from them the next time I have furniture needs.

Working with a client base largely identifying as Aboriginal, it's important to us to support our local community - Kisik made it easy for us to do that.

The products were on time and look beautiful in our office.

Thank you to all staff who assisted us with this purchase, we are extremely happy customers!

Sincerely,

Charity Leonard
